

I like Low Power FM channels. I was asked by my local 96.9fm to make a comment, its a fun station that I like to gather news from. They help their listeners understand and contribute to the community. I believe that corpo media only shows or talks about what can get the most ratings and fill their pocket books. Corpo media does not have interest in my community outside of what it takes to get tax breaks. I encourage and support my local channel - Free Radio San Diego and wish that you will too. Sincerly.
